

## 2011-2012 GRANTEES

### American Cancer Society

Komen funds Road to Recovery: Transportation for Breast Cancer Patients, a van service program available in Bexar County for women diagnosed with breast cancer in need of transportation for treatment, screening or diagnostic appointments.

### CentroMed

CentroMed is a network of clinics providing medical, dental, behavioral health, nutritional services and breast health screenings at eight locations in Bexar County. Komen grant dollars provide education, screening, diagnostic and case management services for the prevention and detection of breast cancer on the south side of San Antonio for low-income, uninsured women.

### CommuniCare Health Centers

CommuniCare is a full-service family health care provider addressing all the basic health care needs of its patients, including dental, behavioral health, health education services and medical. Komen support provides clinical breast exams, screening mammograms and diagnostic breast treatment for low-income, under- or uninsured women on San Antonio's east and west side. Komen funding also provides clinic in-reach and outreach breast health education.

### Martinez Street Women's Center

Entre Mujeres/Between Women Project (*promotoras*), a program which provides education, outreach and support services to underserved, low-income, minority women in the east and southeast sides of San Antonio.

### SLEW Wellness Center

SLEW provides emotional and physical support for underinsured and low-income women who are recovering from and/or undergoing breast cancer surgery, chemotherapy or radiation treatment. Services include mental health, nutritional, physical and massage therapy, lymphatic drainage therapy and nursing services, and are available to breast cancer patients throughout Bexar County.

### ThriveWell Cancer Foundation

ThriveWell Cancer Foundation's DIVA program provides complimentary treatment to breast cancer patients and survivors offering more than 50 free exercise classes and two nutritional counseling sessions per month. The program assists women with breast cancer to incorporate exercise and healthy eating into their lifestyles. Services are offered at no cost to all breast cancer survivors.

### University Health System

University Health System (UHS), in partnership with Metropolitan Health District, assists low-income, uninsured, at-risk women with clinical breast exams, screening mammography and advanced diagnostic procedures in downtown, southwest, southeast and north side clinics in San Antonio. Later this year, UHS will begin providing mobile mammography services to Bexar County, funded in part by Komen.

### WINGS

WINGS provides no-cost patient navigator services and comprehensive treatment (diagnostics, treatment and reconstruction) for uninsured women diagnosed with breast cancer or recurring breast cancer who have no other options for care.
